# RECORDS PROTECTION

## FIREKING® Insulated Fireproof Files

### FIREPROOF INSULATION

is 100% gypsum, reinforced by a 1" x 2" lattice made of 14-gauge, galvanized welded steel wire, providing complete peace of mind from fire, impact, or explosion.

### FIELD-REPLACEABLE

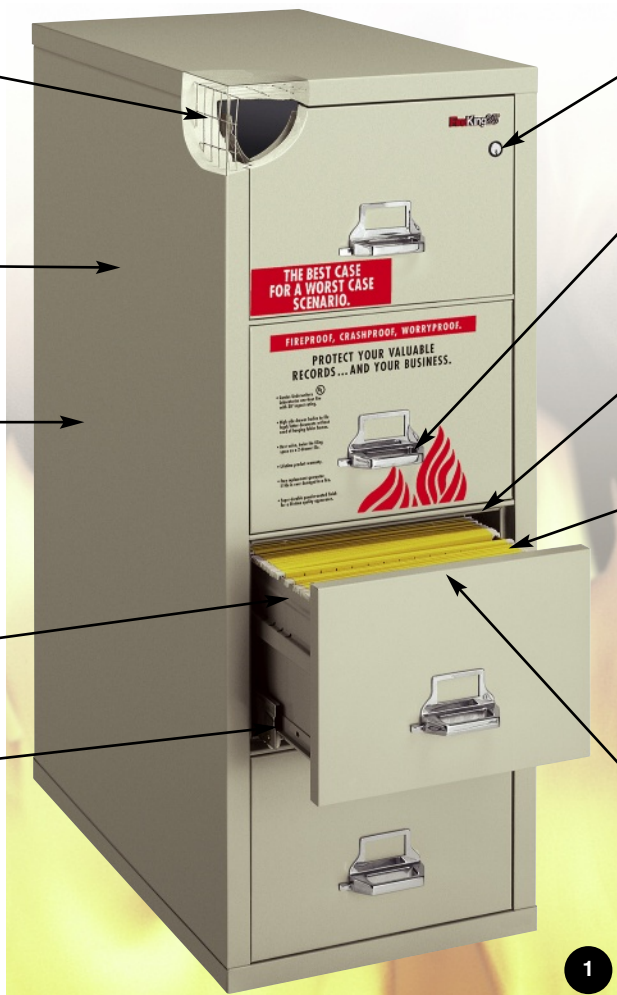

**STEEL PANELS** in the event that any panel is damaged, it can be easily replaced by our service representatives.

**FINISH** is an environmentally friendly, electrostatic powder coating, applied to all sides, including bottom. The finish is scratch-resistant, providing a lifetime quality appearance.

**DRAWER BODIES** are built with high sides for use with hanging folders. No additional frames are required.

**DRAWER SUSPENSIONS** are maintenance-free.

**These files are certified to protect hard drives, CD's, DVD's, flash drives, thumb drives from exposure to heat for 30 minutes.**

**DRAWER LOCKS** on all files provide general locking of all drawers through either standard key locks or U.L.-listed, high-security locks.

**DRAWER PULLS** are surface-mounted to allow for extra insulation inside the drawer heads.

**INSULATION BETWEEN ALL DRAWERS** makes each one a separate insulated container.

**TWO-POSITION DRAWER CATCH** allows access to certain drawers while others remain locked.

**DRAWER HEADS** are formed of welded steel, filled with fireproof gypsum insulation, and reinforced with welded wire for additional strength.

FireKing® offers a variety of filing options to protect your important records. FireKing® files carry the U.L. Class 350 fire and impact label. They feature a U.L. listed high security key lock and full height drawers for hanging or regular folders. All drawers are full suspension for heavy loads. Other colors and models are available on a special order basis with a short lead time.

# FILING & STORAGE

## TENNSCO™ Lockers

Tennsco lockers are built to be durable and quiet. Heavy-gauge steel doors on single-tier and double-tier lockers are designed with door stiffeners, cushioned locking channels, rubber bumpers, and an ultra-smooth latching mechanism which work together to reduce noise and improve door operations. Locker handles on single and double-tier lockers are recessed to give a clean look, as well as to discourage vandalism. All lockers are standard with a padlock hasp and all doors have louvers for ventilation. Single-tier lockers have a three-point locking system while double-tier lockers have a two-point system. Each single-tier locker has a shelf, three single coat hooks, plus a removable coat rod. Double-tier lockers have three single coat hooks per opening. Openings: 12" w x 18" d. Overall dimensions: 18" d x 72" h.
