## TENNSCO™ Lockers

Tennsco lockers are built to be durable and quiet. Heavy-gauge steel doors on single-tier and double-tier lockers are designed with door stiffeners, cushioned locking channels, rubber bumpers, and an ultra-smooth latching mechanism which work together to reduce noise and improve door operations.

Box Lockers are ideal for securely storing smaller items like purses, lunches, books, and athletic gear. The efficient six tier configurations give schools, clubs, and hospitals the necessary storage capabilities without taking up valuable floor space.

Single and Double Tier lockers are roomy enough for just about any secure storage application. Single Tier are our most popular general purpose locker. Double Tier Lockers give you twice as many lockers in the same space as single tier, yet providing plenty of hanging room for shirts and jackets.

The panels are available in two popular standard sizes, 60"h x 48"w and 84"h x 48"w sheets. When mounted side by side, these sheets create a full marker wall. These convenient sizes permit mounting the panels without interfering with wall electronics, etc. If exact width and/or height are required, we can assist with designing custom sizes to span floor-to-ceiling and end-to-end.

The EZ mount "Z" bar mounting makes it easy to mount "Glass Rite Wall" to any wall. If you desire to cover from floor to ceiling, we can provide other methods to mount the panels.
